

EAA Chapter 1
Flabob Airport
Riverside, CA 92509

PRESS RELEASE

EAA (Experimental Aircraft Association) Chapter 1, Headquartered at Flabob Airport, is announcing their 2nd “FLYING START” program, followed up with an “EAGLE’S” flight, at Flabob Airport on May 19th, 2018, 8 AM start time.

The FLYING START program is specifically designed to help and orient interested adults to guide them on how and where to start learning to fly. All of the “Where’s, When’s, and How’s” ... basically all facets of what to do and what to expect, are discussed in the 1 1/2 hour professional presentation.

The EAGLE’S portion of the event is another EAA sanctioned event. This is the actual ‘flying’ portion of the program. Each attendee 18+, will receive an in-depth flight given by an EAA Eagle’s pilot in their personal airplane. As an EAGLE pilot, each is offering their passenger mentorship and assistance, to aid the interested aviator in any way we can.

This program is primarily oriented for the man/woman who has always wanted to learn to fly, but didn’t know how to start the process. This is a NO CHARGE event and is limited to the first 20 registered.

To register and for more information, please call 951-847-5600 or 951-847-5474 or email president@EAACH1.ORG
